# Getahun Haftu Software Engineer

Nationality: Ethiopian Gender: Male

Date of birth: 30/01/2000 GC

#### Contact Details

+251925069004

getahun19h@gmail.com

Addis Ababa, Ethiopia

#### Technical Skills

- Programming languages: C++, Php, Java
- Web development: HTML, CSS, JavaScript, React is
- Database management: MySQL, PostgreSQL
- Software installation and troubleshooting
- **Software**: MS Office, Photoshop, VS Coded, Git, and Adobe Premiere pro

#### Soft Skills

- Ability to work under pressure and meet deadlines
- Adaptability and willingness to learn
- Effective communication and teamwork
- Patience and self-motivation

## Languages

- Tigrigna C2
- Amharic C2
- English B2

#### **Hobbies**

- Problem-Solving Puzzles and Games
- Volunteering
- **Fitness or Sports**
- **Learning New Technologies**

#### About Me

**Recent Software Engineering graduate** with a strong foundation in software engineering and IT. Certified in Cisco IT Essentials, Introduction to Cybersecurity, and DLS. As an intermediate frontend developer skilled in HTML, CSS, JavaScript, and React, I have hands-on experience designing and developing responsive and user-friendly interfaces. I am eager to apply my technical expertise to real-world challenges, contribute to innovative technology, and gain practical experience in a dynamic environment.

### Education

- Bachelor of Science in Software Engineering
- Mekelle University
- November 5, 2024
- ➤ CGPA of 3.73
- Relevant Coursework: Data structure & algorithms, DBMS, Web Design and Programming, software Quality Assurance and Testing, and information security.

# Certificates

- Cisco IT Essentials Certified: Fundamental knowledge of IT concepts, in computer hardware assembly, operating system installation, preventive maintenance and troubleshooting, demonstrate safe lab procedures, and network configuration.
- Introduction to Cybersecurity Certified:
  - Developed a foundational understanding of cybersecurity concepts, including threats, vulnerabilities, and basic security measures.
  - Gained knowledge of common cyberattacks and how to protect against them.
  - Learned about the importance of strong passwords, secure network practices, and data privacy.
- Digital Literacy Skills Certified:
  - Proficient in using basic computer applications, including word processing, spreadsheets, Access, and email.
  - Possess fundamental internet skills, such as browsing, searching, and downloading information.
  - Understand basic digital security practices, including password management and avoiding phishing scams.
